COBAR SHIRE
COUNCIL July 2022
outback nsw

2022/2023 - 2026/2027

Strategic Planning Framework

The **Community Engagement Strategy** outlines how Council will engage with its community and relevant stakeholders in developing and finalising the Community Strategic Plan. Over time it will be reviewed to outline how Council will ensure regular engagement and discussion with our community about their needs and aspirations for the town.

The **Community Strategic Plan** identifies the long term aspirations for our community. The Strategic Plan stretches beyond the next ten years, identifying the outcomes and long term strategic responses needed to achieve the agreed directions and meet the community's values. It demands strong leadership from Council in working with others to grow our Shire into the future.

The 4 Year **Delivery Program** links the 'planning' in the long term Strategic Plan with the 'implementing' in the Annual Operational Plan. It is the strategic document that guides the organisation's work program over the Councillor's four year elected term. The Delivery Program sets out clear priorities, ongoing activities and specific actions Council will undertake, within its responsibilities and capacity, towards achieving the community's outcomes.

The **Annual Operational Plan** is the 'implementing' part of Council's key strategic documents, and outlines all of Council's services and infrastructure activities and tasks for the year. Both ongoing activities and specific tasks contribute to the implementation of Council's Delivery Program.

The **Resource Strategy** outlines Council's capacity to manage assets and deliver services over the next ten years. The Resource Strategy includes three key elements – a Long Term Financial Plan, a Workforce Plan, and Asset Management Plans. To prepare the Resource Strategy, Council determines its capacity and how to effectively manage its finances, the sustainability of its workforce, and the overall costs of its community assets.

Message from the Mayor and General Manager

Background

Local government is required to work within the Integrated Planning and Reporting framework under the *NSW Local Government Act*. The Framework aims to ensure that council activities reflect community aspirations. Council has had a Delivery Program in place since June 2012. Since then, a great deal of community consultation has been undertaken, with regular meetings of interest groups, consultations around specific activities, such as the Special Rate Variation in 2013 and in developing this latest suite of plans.

Our Community Strategic Plan (CSP) outlines the community's aspirations. The Delivery Program then sets out the activities Council will undertake to address those aspirations. A number of aspirations in the CSP are not directly Council's responsibility, so under this Delivery Program a paper has been written detailing the issues and solutions to addressing them. This will be a living document, frequently updated to remain current. The aim of the planning model is to ensure that Council takes a strategic long-term approach to our activities and that these activities reflect the desires of our community.

Financial Sustainability

Cobar Shire Council continues to address the issue of financial sustainability of the organisation. Council has worked hard over the years to build up reasonable cash reserves that not only cover restricted cash requirements, but also to have discretionary funding available, should it be required for activities such as asset renewal. Whilst a great deal of effort was required to build up these reserves, further analysis and hard decisions will be required over the coming years in a bid to remove the forecast operating deficit. To do so, Council will either have to reduce expenditure through reduced service levels or find additional income sources.

Council has a limited rate base, with around \$4.2 million collected in rates each year. With IPART only allowing a .7% rate rise under the rate cap. Council's rate income will rise by just \$26,000. This does not go close to covering the rise in costs that Council will experience. Whilst a more realistic rate cap would assist to meet CPI increases, Council requires increases in sources of income outside of rates to meet the costs of current service provision. External income sources could include grants and development contributions. Another special rate rise is also an option Council may consider in the future.

Council has put great effort into improving financial processes and reporting to allow staff and Councillors to understand the true financial picture of the organisation. Despite these activities, Council continues to have a significant shortfall in funding required to undertake asset maintenance. Council is currently experiencing a \$2.1m shortfall between the income available for asset maintenance and what is required to maintain our assets each year. This does not include asset renewal. This level of funding cannot be generated from increases in income generated from within the shire. E.g. increase in rates.

Council's aim is to provide at least a balanced budget each year. To do this, further community awareness raising is needed so the community can understand the cost of providing service levels and Council can make informed decisions about where to cut operating costs. Council has outlined a number of large capital projects in the ten year financial plan, however these will mostly need to be funded through grants or contributions.

Another major risk to Council's sustainability is RMS contract. Council is a contractor to the RMS to undertake maintenance and capital works on the state highways. Council relies on this work to form economies of scale in terms of plant, workforce etc. Should these arrangements change, there will be a significant impact on Council. It is assumed in our forecasting that the current arrangements will remain in place.

Service and Asset Maintenance

We are an isolated community and Council often provides services in addition to those required by local government, such as the provision of medical infrastructure due to a failure of other levels of government to do so. Providing quality medical centres helps to attract doctors, nurses and allied health professionals. Without access to quality medical services, we are unable to attract and retain residents in our community.

Council provides essential services that improve the liveability of our Shire, help to create the social fabric of our community and to assist business to attract and retain employees – a key challenge for our community. Community assets such as the swimming pool, Cobar Youth and Community Centre and community halls, help to make our community a healthy one and bring people together. Cobar has a highly transient population and activities and assets such as playgroups, children's services, parks and gardens all help to bring us together and integrate our new residents. A good road network is vital to the economy and the social lives of our community. The cost of providing these services continues to increase above the cost of inflation and Council will continue to seek efficiencies to ensure our services are viable and our assets are maintained.

Other Government Funding

Council provides three childcare services – In Home Care, Family Day Care and COOSH (after school care and holiday care).

Council is now the operator of Kubby House Childcare Centre and have been successful in obtaining grant funds to build a new Early Learning Centre at Ward Oval.

A discussion paper will accompany this Program outlining in more detail the high priority issues where Council must work with other levels of government, NGO's and business to progress community priorities. This paper will be regularly updated and used to inform and progress solutions to the issues identified.

Conclusion

Council has a big job ahead, but as a team we are working together to ensure Cobar is a great place to live and to ensure that Cobar Shire Council is a sustainable organisation that is capable of delivering high quality services valued by the community.

Introduction

Achieving the Community Strategic Plan – *Cobar Shire 2032*

Generally, the Delivery Program aims to give a focus to Council's activities for their four year term in office however due to Covid the Council which were elected in 2022 will only be until September 2024. It sets out a range of activities and services that Council will undertake and provide to achieve the outcomes identified in Cobar Shire's Community Strategic Plan – *Cobar Shire 2032*. Given that the next Council elections will be held in September 2024, this Delivery Program has been reviewed by the newly elected members to ensure it aligns with their goals for their elected term.

The Delivery Program should be read in conjunction with the Annual Operational Plan which outlines the individual projects and activities that will be undertaken for the year to achieve the commitments made in the Delivery Program.

The Delivery Program is designed as the single point of reference for all activities undertaken by Council during each term of office. All plans, projects, activities and funding allocations must be directly linked to this Program.

The Delivery Program and the Annual Operational Plan should allow the community needs and expectations outlined in the Community Strategic Plan to be met in a planned, coordinated and cost effective manner.

This Delivery Program outlines Council's activities for the next four years. It:

- Directly addresses the objectives and strategies of the Community Strategic Plan and identifies specific actions that Council will undertake in response to these objectives and strategies;
- Informs, and is informed by, the Resourcing Strategy;
- Addresses the full range of Council's operations;
- Allocates responsibilities for each action or set of actions;
- Includes detailed financial estimates for the four year period;
- Includes a method of assessment to determine the effectiveness of each activity detailed in the Delivery Program in achieving the objectives to which the activity is directed.

This Delivery Program is a living document and is subject to regular review by the community, councillors and staff. As circumstances change, such as finances, government policy or community expectations, then the document can be altered accordingly. Regular reports to Council will be provided to show the progress being made in implementing this Delivery Program.

Each new Council will be responsible for preparing a new Delivery Program in response to *Cobar Shire 2032* and will be held accountable for implementing the program within its term. The outgoing Council is required to report to the community on what it has achieved in this regard. The Council must review its Delivery Program each year when preparing the Annual Operational Plan. Any significant amendments to the Program must be re-exhibited.

Community Profile

Cobar Shire is situated in the centre of New South Wales encompassing an area of around 45,600 square kilometres, about 700kms north-west of Sydney and 650kms north of Canberra. Cobar is located on the crossroads of three major roads – the Kidman Way linking Melbourne to Brisbane, the Barrier Highway linking Sydney to Adelaide via Broken Hill and the Wool Track linking the Sunraysia area to South East Queensland.

Cobar Shire is home to around 4,700 residents, the majority of whom live in the town of Cobar. Other villages in the Shire are Euabalong and Euabalong West, , Mount Hope and Nymagee.

The Shire's prosperity is built around the thriving mining – copper, lead, silver, zinc, gold – and pastoral industries, which are strongly supported by a wide range of attractions and activities, that make it a major tourist stop-over point and a wonderful place to live, work and play.

The local Aboriginal history is an important part of Cobar, or 'Kubbur', as the area was referred to by the Ngiyampaa people who inhabited the area prior to European settlement. The main language groups are Ngiyampaa in the centre, Ngemba in the north east, Wiradjuri in the south, and Paakantkji in the north west.

The Council has a major issue in the need to develop a Housing Policy in order to meet the current shortage for both residential and contract accommodation which provides an ongoing pressure to attract workers and retain residents.

Councillors

Councillors are elected to represent the people of Cobar Shire. The Councillors elect the Mayor and Deputy Mayor each September.

Cobar Shire Council

Vision

Our Vision is for Cobar Shire to be an attractive, healthy and caring environment in which to live, work and play, achieved in partnership with the community through initiative, foresight and leadership.

Mission

Our Mission is to provide sound and sensible government and ensure that works and services are delivered effectively and equitably to the community of Cobar Shire.

Council will also develop and constantly review its policy on the maintenance of its road network with current priorities to include the sealing of the following strategic roads within the Shire: The Wool Track, Louth Road and Tilpa Road.

Values

Council has adopted the following Values that should be reflected in how the whole organisation operates and interacts with others:

- Continually strive for improvement in every aspect of Council's activities and recognise initiative.
- All activities are to be customer focused and provide equity for all.
- Involve the community in decision making through open government and consultative processes.
- Foster and promote sustainable ecological and economic development, rural pursuits and industries that contribute to the wealth of the region and in keeping with the environment and residents lifestyle.
- Conserve and protect the natural beauty of the area.
- Promote a spirit of regional cooperation particularly in regard to planning, infrastructure, economic development. Tourism and employment.

Cobar Shire Community

'Cobar Shire 2032' Values

Values are beliefs we have that provide a basis for choices we make. They ultimately determine the quality of our lives. During consultations, the community has identified the following values that are important to the residents of Cobar Shire:

- A community that is generous, engaged and participative and that welcomes new residents and encourages them to stay.
- Vibrant and valued industries with a strong social conscious that participate in the community.
- A well funded and well governed Council that is engaged with the community and encourages their participation in decision making.
- Access to quality and well maintained infrastructure.

Our Strategic Direction

Our response to the community's values has been to formulate a set of activities based around the five themes identified in the Community Strategic Plan – *Cobar Shire 2030*. Each theme outlines the long term goals and community outcomes and then the strategies that Council, partner organisations and individuals can undertake to work towards them.

1. Community

- 1.1 Strong coordination between government agencies, Council and NGOs to ensure efficient service delivery, avoid duplication of services and build the capacity of the community.
- 1.2 Young people are able to reach their full potential, are encouraged to stay in the region and have a wide range of opportunities available to them locally.
- 1.3 Families are supported, social inclusion is valued and families who relocate to Cobar stay in Cobar.
- 1.4 A generous, engaged and participative community with a strong community spirit.
- 1.5 A healthy and active community.
- 1.6 A safe and clean community

4. Infrastructure

- 4.1 A clean and reliable water supply.
- 4.2 Good telecommunications networks with services equal to the metropolitan areas.
- 4.3 Good transport networks that increase the accessibility of Cobar and markets.
- 4.4 Good quality and affordable community facilities and infrastructure

2. Economy

- 2.1 A vibrant shire that promotes and supports business growth and retention, development and investment.
- 2.2 A strong and diverse tourist industry with a focus on customer service.
- 2.3 A strong business hub operating out of the Cobar airport.
- 2.4 Attract retain & develop workforce

3. Governance

- 3.1 A well-funded Council that is well managed and well governed.
- 3.2 An engaged community that participates in decision making.
- 3.3 A well-functioning Council that focuses on strategic planning, provides good customer service and secures value-for-money goods and services
- 3.4 Housing and accommodation that meets the current and future needs for our Shire.

5. Environment

- 5.1 Ability to adapt to climate change and benefit from climate change and carbon policy initiatives
- 5.2 Well managed public and private land.

Principle Activities

This section outlines the services, initiatives and programs that Council intends to undertake to achieve the long term goals and Community Outcomes. Key terms are defined below.

Definitions

Community Outcome

These are statements of the outcomes we are aiming to achieve for our community. They are expressed from the community's point of view.

Council Strategy

Means by which Council plans to achieve the community outcomes. There may be several council strategies contributing to a particular community outcome.

Council Activities/Services

Things Council plans to do as part of a strategy to achieve a community outcome.

Responsibility

The position in Council that is responsible for ensuring that particular activity is undertaken. Usually, these staff members are responsible for monitoring and reporting on the progress of that activity, including performance measures.

Performance Indicators

Something Council will measure to determine how well we are performing in relation to the activities.
